SWAG'D UP hit me as hard as any boar has in a long time, and with the sow power on both sides of his pedigree, I knew we needed to find a way to run this one through our sows in State Center.

SWAG'D UP will be the first boar in our newest venture here at Eggers Show Pigs, and by the fall of 2014 we plan to have several elite sires housed on the farm.

SWAG'D UP is a double bred Swagger and 1/4 Hampshire. I expect to see tons of predictability based on those things alone. He is one of the most unique individuals that I've ever seen. He is an attractive, tall fronted, good looking boar, that may be the shortest bodied, boldest ribbed, and softest centered Swagger bred boar out there.

SWAG'D UP is extremely athletic and drives with authority off of both ends. Then, when it comes to the business end of things, he comes at you wide chested, explosive in his top shape and opens up into one of the largest, squarest hips.

Simply put, SWAG'D UP is bred to be a champion barrow sire, looks like a champion barrow sire, and we plan to make him just that!
